

The aim of the Employment Medical (EM) Questionnaire is to ensure that applicants physical and other related abilities are matched to the medical and fitness standards for the particular duties of a job.

Employment Medical Questionnaires (EM's) are necessary to determine that:

- There is not risk of aggravating a pre-existing medical condition
- The applicant is able to productively carry out the duties of the position safely
- The applicant should not, because of a medical condition, increase risk to other workers, equipment, products or the general public.
