

This policy sets out conditions applicable to Injury Management

The full content of the policy is available for download to your shopping cart.

Example content:

ABC Company is committed to the prevention of industrial injuries and illness through the provision of a safe and healthy working environment. In the event that an employee is injured during the course of his or her work and is unable to perform his or her normal duties, the Company will endeavour to provide meaningful work which will assist the employee in rehabilitation. The Company will provide a rehabilitation plan to the injured worker in order to achieve the purpose.

- to facilitate an early effective and safe return to meaningful employment;
- to establish that rehabilitation is the accepted and normal practice whenever possible following injury, illness or disease;
- to ensure that the rehabilitation plan is implemented by management, using the resources of the treating doctor or rehabilitation provider - (specialised centres providing extensive and coordinated treatment for the injured worker), to ensure availability of the necessary elements and resources for an effective rehabilitation programme;
